Camp Sals, Culpeper, Va., August 4.—The schedule of exercises for the sixth day of the encampment of the Second Regiment was squad, company and battalion, in extended order, and out-

but duty. These exercises were begun at 7 A. M. and completed at 11 A. M. This afternoon the regiment, in command of Colonel R. F. Leedy, was exercised in regimental drill, followed by regimental parade and guard mount.

Between 11 A. M. and 1 P. M. each day Colonel Jo Lane Stern, the Inspector-General of Virginia volunteers, has made his annual inspection by companies. The inspection of troops while in camp is an innovation, but the plan, it is believed, is giving general satisfaction, and Colonel Stern appears to be pleased with the new plan.

The hospital is without a patient, and the surgeons are finding ample time to lecture and give demonstrations on first aid to the injured. These lectures and demonstrations are given between periods of drills, and they appear to interest both officers and men.

Company D, stationed at Front Royal to-day, was the recipient of two dressed lambs from an admirer in Front Royal, and the company enjoyed the feast. Captain S. Gardner Waller, commanding the company, had a few officers of high rank as guests for the occasion, all of whom appreciated the unusual treat.

Second Lieutenant S. R. Millar, Jr., at the request of Colonel Nottingham, Fourth Regiment, and in compliance with orders, will serve during the next week with the Fourth Regiment to fill a vacancy in that regiment caused by resignation.

Major E. L. Slaughter, commanding the Third Battalion, announced the appointment of Alex Bowman, of Company B, battalion sergeant.

Major Colonel Leedy to-day announced the appointment of Joseph Franklin Shell, attached to a regiment sergeant-major, vice Karkack, promoted to commissary quartermaster, on Major Slaughter's staff.

Major Benjamin Harrison entertained at a Dutch luncheon to-day at mess hall, Mrs. Samuelson, Misses Lucy Welch, Mildred Hill, Mildred Bishburn and Miss Jessie Watt. Mrs. and Mrs. Hise Jennings entertained at dinner last evening Majors Potts and Winfrey, Captain Davant, Lieutenant Phifer and Lieutenant Lightner.

At 6 P. M. a rainstorm visited the camp, and for two hours it was almost a deluge. The athletic schedules for the evening were called off, the regimental ball, which was to have been given in honor of the Misses Vaughan and Miss Leedy, was postponed until Saturday night.

He was forty-two years of age, and leaves, besides his wife and fourteen-year-old son, two sisters, Mrs. J. D. Kirby, of Washington, and Miss Mattie Benner, of Warrenton.

Play With Gunpowder.
[Special to The Times-Dispatch.]
Harrisonburg, Va., August 4.—Jesse Little son of John L. Bennington, of Bridgewater, and a little playmate spread a quantity of gunpowder in a semi-circle on a board in the back yard. A lighted match was touched to the explosive to see what would happen.

Mrs. Bennington rushed into the yard in time to extinguish the flaming clothing of the children and save their lives. Little Jesse's eyebrows are gone, his face is woefully disfigured and his hands, feet and legs are covered with blisters.

The lad will recover from his injuries.

VOTES FOR BONDS**

Election Will Be Held in Charlottesville September 5—Facing Water Famine.

[Special to The Times-Dispatch.]
Charlottesville, Va., August 4.—At a lengthy session of the City Council last night the proposition to issue \$25,000 was improvement bonds was voted upon, eight of the nine members present voting to approve. September 5 was fixed as the date for the election.

In accordance with the action of the Council, notice to-day was served on the Charlottesville Ice Company that it will be allowed one-half its present water supply from the city on and after August 14, unless conditions improve. C. D. Carter, the superintendent of water, states that unless this section is blessed with unusually hard rains, a rise in the water in the reservoir cannot be expected in the next three months. The ground is dry at least ten feet down, as shown by digging yesterday, and there must be many and heavy rainfalls before any increase at all can be had in the big basin. There is no water in the old reservoir. The new contains probably thirty-four feet, but all this is by no means available for use. There probably is a month's supply of such water at the rate it is now being used. "This is one of the most serious problems we have ever had," said the superintendent.

Water has already been cut off from the liverymen of the city, from the baths and swimming pool of the Young Men's Christian Association, and the supply of the Chesapeake and Ohio Railway Company has been curtailed. Mr. Elliott, of the ice company, states that if water is cut off from the plant the abattoir would necessarily be cut off, too, and that would mean that over \$5,000 worth of meat in cold storage belonging to the butchers of the city would "go up in smoke." It is not a question of the only—the abattoir cannot be run unless the ice plant is run also.
